-Clear and warmer weather is predicted for the South Atlantic and Gulf States to-day. -Dick Alston, colored, found trespassing on some premises in Queen street, between two and three o'clock yesterday aiternoon, was arrested and taken to the lower Guardhouse. -A little son of Mr. Charles Inglesby was painfully injured about the face and hands on

Saturday last by the explosion of a can of gunpowder. He was doing weil yesterday. _Mr. F. Dothage was painfully bruised on one side yesterday afternoon, during the drill of the German Hussar Tilting Club, by the rearing and falling of his horse. His injuries are not necessarily dangerous.

-Wm. Henry Henderson, convicted at the August 1870 term of the United States Court of robbing the mails and sentenced to ten years' imprisonment in the Albany penitentlary, has been pardoned by the President. -Oarpenters were at work all last night

making an alteration in the front of the South Carolina Loan and Trust Company's building. The door which occupied the centre of the front was turned into a window, and the west window changed into a door. The work was done by the Devereux Bros.

THE PATTI-MARIO CONCERT.

The concert at the Academy last evening was a very enjoyable entertainment. Miss Pattl sang twice with her wonted grace and sweetness, her trills and staccatos in the Variations by Proch being especially fine. In response to an encore she gave a laughing song, the only fault of which was that there was not enough of it. Signor Mario's voice we thought, showed signs of fatigue. But everybody recognized its exquisite mellowness, and the duet from Rossini, which he sang with Miss Cary, was a gem. Miss Cary certainly had no cause to complain of her re ception, being so persistently applauded that she was compelled to appear and plead hoarse ness as an excuse for non-compliance with the encore. In place of the aria from Mercadente, allotted her in the bill, she sang with much taste and tenderness "Kathleen Mayourneen." The violin solos by M. Sauret formed an admirable feature of the concert, and Mile. Carreno, the planiste, made a very good impression. This lady being taken ill during the evening. was unable to perform her last piece, and the famous air from the Barber of Seville, by Signor Scolars, was substituted. The entertainment was closed by the grand quartette from Martha, which was given with excellent effect. The last concert will take place this even

ing. The box sheet already indicates that there will be another crowded house.

"It is better to be born lucky than rich," says the homely old proverb, and this, as far as it goes, is true enough. But it is now generally admitted that good business tact is much more valuable to its possessor than Charleston Social Mounted Club, at half-pas even luck or riches. It is this tact which in commercial enterprise constitutes the difference between failure and success, and builds up colossal business fabrics with astonishing rapidity. This is strikingly exemplified in the case of Messrs Barden & Parker, naval stores Alonzo J. White & Son will sell at 11 o'clock, dealers and cotton factors of this city. These gentlemen commenced business in Charleston J. Fraser Mathewes will sell at 11 o'clock, about the year 1869 as factors and commis sion merchants. Their business was then H. H. The Children's Feast !

[CORRESPONDENCE OF THE NEWS] Bright, beautiful, New Year's Day! Who an be otherwise than happy ! it is so charming. Even the white sandtills are all aglow the beach all sparkling, and the waters danc-ing and shining in the glorious sunlight; while over all the warm south wind is gently

The heart is glad, for nature smiles
Around, beneath, above;
A halo o'er the place is thrown,
Of beauty, mirth and love.

Yes, we had a happy time on New Year's Day. The weather being most delightful, our Day. The weather being most deligntial, of sunny island was thronged with merry vis sunny island was inronged with merry visi-tors, but our thoughts were not of them, but occupied with the little cheery, seaside people, the bright, happy children of Moultrievile, made still happier that day through the good-ness of our kind-hearted intendant, who invited all of them to attend a pleasure party about four o'clock in the afternoon, groups

of little boys and girls were seen in every di-rection going to the doctor's residence. When assembled we had a peep at "the happy band." Indeed it was a lovely sight. Nearly dren were present slanders had been invited to bring with them their little visiting friends; so some were strangers, but none the less welcome. With-out exception all were neat, pretty, wellbehaved children. The good intendant was in their midst, with his aminable lady and lovely, young daughter, together with the smaller children of his family, also a fair smaller children of his family, also a lair young friend that had accompanied them from the city. We noticed, too, standing by the doctor's side enjoying the pleasing scene one of our most distinguished Southern architects, who, we understand, with his family, is spending the winter on the island. A lew neighbors had also come in to look at the children, also their gitted teacher.

Several tables were spread, around which the little folks gathered and partook of a de-

licious repast. It was not "A feast of reason and flow of soul," but a real banquet of fruit, cake, sugar-plums, &c., set round with rosy dimples, sparkling eyes, and innocent young dimples, sparking eyes, and innocent young hearts teeming with pleasure. Just before nightfall, lafter many kind wish es to their benevolent host and hostess, and receiving as many in return, those joyous lit-tle ones set out for home, with a parting lavi-tation from their pleasant friends to call again on next New Year's Day. THE MYSTERIES OF MESMERISM.

An Astounding Power.

[From the India Mail.] A curious case of mesmerism is recorded by the civil surgeon of Hoshundgabad. A young woman named Nunnee, aged wenty-four, was narried some twelve years age; she, however, did not go to her husband's house for two years afterward. After staying with him for eight afterward. After staying with him for eight days she suddenly became insensible, and remained so for two or three days. She was taken back to her mother, and soon got well. Then follows a very remarkable history. During the next four or five years she never entered her husband's house without falling insensible and remaining so. He was very kind and attentive to her; she liked him, but when erov he came into her presence she at once sank into this state. This went on ull she became emaciated and exhausted, and at last her parents applied to the court for a separate resistance for ler. While she was in court maintenance for her. While she was in courthe husband entered, and she instantly became insensible, and was carried to the hospital e for her. While she was in court where the case was carefully attended to by Dr. Collen, in March, this year. While in this state her pulse was even, breathing soft, her body pliant, but she could eat nothing. Exceptions were carefully made to see if there body pliant, but she could eat nothing. Experiments were carefully made to see if there was no trick about it. While she was in bed, her husband was muffled up, and made to walk through the ward. She said she felt he was near her, and she was by no means well, but had not seen him anywhere about. Next day thus experiment was repeated, and she actually became insensible as before. When the husband left the place she recovered. The experiment as to the influence of the husband's pres ence was tried in all sorts of ways. He was made to pass behind her, and to be near her in a separate ward, but this had no effect, but whenever he was brought to look on her face, though muffled up, or diaguised as a police-mon, as a sepoy, and so forth, she was at sonce influenced. The experiments continued for about a month, and the conclusion was that the husband unconsciously mesmerized her. The court came to the conclusion that it was impossible that she could live with him, and a separate allowance was ordered. The husband was asked to try if he could not remove the effect, seeing that he had the power to cause it, but he was quite frightened at the idea of having the power, and could not control it in any

CLEAR AND HARMLESS AS WA-TER-NATIANS' CRYSTAL DISCOVERY FOR THE HAIR .- A perfectly clear preparation in one bottle, as easily applied as water, for restoring to gray hair its natural color and youthful appearance, to eradicate and prevent dandruff, to promote the growth of the hair and stop its falling out. It is entirely harmless, and perfectly free from any poisonous substance, and will therefore take the place of all the dirty and unpleasant preparations now in use. Numerous testimonials have been sent us from many of our most prominent citizens, some of which are subjoined. In everything in which the articles now in u e are objectionable, CRYSTAL DISCOVERY is perfect. It is warranted to contain neither Sugar of Lead, Sulphur or Nitrate of Silver, it does not soil the clothes or scalp, is agreeably perfamed, and makes one of the best dressings for the hair in use. It restores the color of the hair "more perfect and uniformly than any other preparation," and always does so in from three to ten days, virtually feeding the roots of the hair with all the nourishing qualities necessary te its growth and healthy condition; it restores the decayed and induces a new growth of the hair more posttively than anything else. The application of this wonderful discovery also produces a pleasant and cooling effect on the scalp and gives the hair a pleasing and clegant appearance. Price \$1 a ARTHUR NATTANS, bottle.
